

High School Supply List

2021-2022

Supplies that Stay with Students

- Pencils - Mechanical or wooden
- Erasers - Pack of 2-3 large pink erasers.
- Blue or black pens
- White-Out
- Ruler
- Protractor (geometry students only)
- Compass (geometry students only)
- Ten composition books (5 for each semester) - 2 blue, 2 black, 2 yellow, 2 green, 2 red
- One 2" or larger three-ring binder
- 6 Dividers
- One package of colored pencils (6-8 different colors)
- One package of highlighters (at least 4 colors)
- One package of grid paper (NOT graph paper)
- Headphones or earbuds (USB recommended)

Supplies that Stay in the Classroom

- One container of disinfectant wipes.
- One bottle of hand sanitizer
- Three rolls of paper towels
- One 4-pack of AAA batteries
- One box of tissue
- Two glue sticks.
- One package of college ruled notebook paper

Recommended Supplies (Not Required)

- o Graphing calculator. Texas Instruments graphing calculator is the model you should purchase. We use TI-84 Plus graphing calculators in class, but a TI-83 or TI-84 calculator will get the job done. Students will have access to these while they are in class, but you may want one for home use. This is particularly recommended if your student is college-bound, as these are the same calculators used at the majority of universities.

- o A laptop. A Chromebook is the least expensive option (often can be found for about \$100) that will do what you need, but any laptop will work (Windows, Mac, or Linux). Like the calculators, students will have access to a computer in class, but you may want one for home use.
